ADMINISTRATION

To the 1972 graduates it can be said that you accepted the challenge and that you prevailed. Now you must accept a new and greater challenge, one that moves you from the role of recipient to that of contributor. For now you must contribute, to your fellow men, and to yourself and those you represent. You should accept this new challenge with confidence since what you have learned and experienced during your Tech years is a solid foundation. You will always be a part of Tech and Tech will always be a part of you.

"There's a new world comin'
and it's right around the
bend.

There's a new world comin';
this one's comin' to an end.

There's a new world comin';
the one we've had visions
of.

Comin' in Peace, comin' in
Joy,
Comin' in Love."

— B. Mann
